FUND CAMPAIGN BROKE RECORDS

The payments on the Y. M. C. A.
new building subscriptions are coming
in, in a way most gratifying to the
directors. Of the \$144,480.35 raised in
the recent campaign, over \$45,000 has
been paid in, and this sum will prob-
ably reach \$60,000 the first of the year.
This money is being deposited in the
banks on which the checks are drawn,
and the association will get interest
on its deposits. This plan was follow-
ed in San Francisco, where the interest
amounted to enough to build an addi-
tional floor to the building. While no
such sum will be realized here, the in-
terest will be enough to furnish a num-
ber of rooms in the dormitory. The
fives, tens and twenty-fives, when de-
posited, make a goodly sum, which
works twenty-four hours a day.

The association received word from
New York a few days ago substantiat-
ing the opinion of the officers that the
campaign established a world record for
a small city, in time and amount. Thus
Honolulu adds two more records to its
already long list. The total number of
subscribers was over 1000, making the
building truly a matter of general in-
terest. Congratulatory letters have
been received from many directions,
from sources as widely scattered as
New York, New Jersey, Texas, Mis-
souri, Wisconsin and Pennsylvania.
The association has been asked for a
cut of the new building, to be published
by a New York magazine having a wide
circulation. When plans are adopted,
the picture of the Honolulu Y. M. C. A.
will be seen around the world. This
is good promotion.

Interesting incidents have come up
in the collection of the funds. One
man had put \$500 for the Y. M. C. A.
in his will, but when the campaign
came off, decided to give the money
while alive and see the results of the
gift. The desire that the association
secure the library site is almost unan-
imous, the collector being asked about
this plan on every hand. If such a
deal can be put through, it will be
decided very soon, the directors and
trustees of the association meeting this
afternoon to draw up a proposition to
submit to the library board.

M'BRYDE, COMMISSIONER OF IMMIGRATION

Acting Governor Mott-Smith yester-
day appointed Alexander D. M'Bryde a
commissioner of immigration, to fill the
vacancy created by the resignation of
E. A. Mott-Smith, which was tendered
when Governor Frear left for the Coast
and accepted by Ernest A. Mott-Smith
in his capacity as temporary head of
the territorial government.

INTERNAL REVENUE COLLECTIONS GROW

The internal revenue collections
made by the local office this year, since
July 1, are \$5700 in excess of the col-
lections of last year for the same
period, according to a statement made
yesterday afternoon by Collector Wal-
ter F. Drake. The collections for the
past five months have been larger than
were those for the entire twelve months
four or five years ago.

The increase in internal revenue col-
lections is shown not only in Hawaii
but throughout the entire United
States, according to the report of the
commissioner of internal revenue.

Hereafter, of course, the collections
will run up very fast on account of
the fact that the collection of the cor-
poration income tax is placed in the
hands of the internal revenue depart-
ment.

A BROKEN-DOWN SYSTEM.

There is a condition (or disease) to which doctors
give many names, but which few of them really
understand. It is simply weakness—a break-down,
as it were, of the vital forces that sustain the sys-
tem. No matter what may be its causes (for they
are almost numberless), its symptoms are much the
same: the more prominent being sleeplessness,
sense of prostration or weariness, depression of
spirits and want of energy for all the ordinary
affairs of life. Now, what alone is absolutely effec-
tual in all such cases is increased vitality—vigour—

to throw off these morbid feelings, and experience
proofs that as it succeeds the day this may be
more certain secured by a course of

and a new ex-ome imparted in place of what
has so far been a worn-out, "used up," and
valueless. This wonderful medicine is purely
vegetable and of innocuous, is agreeable to the taste
suitable for all constitutions and conditions, in
either sex; and it is difficult to imagine a case of
dis-ease or derangement, whose main features are
those of debility, that will not be speedily and
permanently benefited by this never-failing re-
cuperative essence, which is destined to cast into
oblivion everything that had preceded it for this
wide-spread and numerous class of human ailments.

THERAPION

is sold by
the principal
chemists throughout the world. Price in England,
29 pence. Purchasers should see that the word
"THERAPION" appears on British Government
Stamp in white letters on a red ground, affixed
to every package by order of His Majesty's Hon.
Commissioners, and without which it is a forgery.

Therapion may now be had in taste-
less form.
